Passionate MERN Stack Web Developer with a strong interest in building modern, user-friendly, and scalable web applications. I aim to continuously improve my skills in MongoDB, Express.js, React, and Node.js while contributing to innovative projects and growing as a professional software developer.

Skills:

- **Frontend:** JavaScript (ES6+), TypeScript, React.js, Next.js, React Router, Axios, Better Auth
- **Backend:** Node.js, Express.js, REST API Development, JWT Authentication, Joi, Zod
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git & GitHub, VS Code, Vercel, Netlify, Postman

Projects:

DocAppoint – Doctor Appointment Booking System

A full-stack doctor appointment management platform where users can browse doctors, book appointments, manage schedules, and leave reviews through a secure authentication system.

Major Features:

- Secure authentication system using Better Auth and JWT/session management
- Doctor browsing, appointment booking, and user dashboard for managing appointments, reviews, and profile information
- Responsive modern UI with smooth animations and interactive experience

QurbaniHat – Online Qurbani Animal Booking Platform

A modern and responsive web application where users can browse, explore, and book Qurbani animals online with secure authentication, sorting functionality, and detailed animal information.

Major Features:

- Authentication system with Email/Password and Google login using Better Auth
- Animal browsing, price sorting, detailed information, and booking functionality
- User profile management with update feature and fully responsive modern UI with toast notifications

Experiences:

Lintech Group, UK, Junior Backend Developer (September 2023 - December 2023)

Developed secure and scalable REST APIs using Node.js, Express.js, MongoDB, JWT, Zod, and Postman.

Thinky Storm, Dhaka, Full Stack Web Developer (MERN) & Intern (Jan 2023 – May 2023)

Worked on MERN stack applications, building responsive UIs, REST APIs, and MongoDB-based solutions.

Education:

B.Sc. in Computer Science & Engineering (CSE) — Daffodil International University

Graduated | CGPA: 3.28 / 4.00

Languages:

Bangla (Native), English (Professional), Japanese N5 (Beginner)
